

Program of the XXIVth Symposium AVH to be held, on March, 30th 2017

Biotechnology processes and the diversification of sugar utilization

8: 45 – Opening of Symposium

Session I: Innovative and environment friendly processes

President: **Philippe REISER**, *CEDUS, Paris, France*

9:00: - Exploiting sugar platform in the production of substitute petrochemicals, **Arvind Chudasama**, *Informa, London, UK*.

9:30 – Sustainable and environment friendly fuels from agro-resources, **Marc Delcourt**, *Global Bioenergies, Evry, France*

9:50 – Integrated Green Biorefinery in Bazancourt - Pomacle, **J.M. Chauvet**, *Fondation Jacques de Bohan, Institut de la Bioraffinerie, Pomacle, France*

10: 10 – Coffee Break, Posters and Exhibitors

Session II : Enzymatic and Chemical derivatives of sucrose

President: **Dr. Jan Maarten de BRUIJN**, *Südzucker, Obringheim, Germany*

11:00 - Biotechnological routes to diversification of sugar derivatives, **Prof. Bo Jiang**, *Jiangnan University, Wuxi, China*

11:30 Sucrochemistry, Achievements and Perspectives, **Riaz Khan**, *Sonning, UK*

12:00 - Posters and Exhibitors

13:00 – Lunch

Session III: Small Scale Biorefineries and Analytical Aspects

President: **Dr. Martin BRUHNS**, *retired, Kleinmachnow, Germany*

15:00 – Small scale biorefinery for sugar and ethanol production in the Netherlands, **Marieke Bruins** and **Johan Sanders**, *Wageningen UR, The Netherlands*

15:30 - GPI Bio Sugar and the Small Scale Organic Sugar production, **Gianluigi Marchetti**, *Bionext Ltd, Green Power Industries Ltd, Italy*

16:00 – Promising bioethanol processes for developing a biorefinery in the Moroccan sugar industry, **Anouar Kamzoun**, *University of Mohamed V, Rabat, Morocco*

16:30 –Analytical tools for sugar and bioethanol factories, **Vincent Marchand**, *Anton Paar, France*

17:00 - Concluding remarks

Simultaneous translation
